SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

This statement is filed in the application identified above pursuant to 37 C.F.R. § 1.56. In accordance with 37 C.F.R. § 1.98(a)(2), no copies of the cited U.S. references are provided. No representation is intended that a complete search has been made of the prior art or the litigation materials generated during the course of litigation, or that prior art references or litigation materials other than those listed on the attached forms are not available. The citation of these references and litigation materials shall not be construed to be an admission that the information cited in the statement is considered material to patentability of the subject invention.

Under MPEP § 2001.06(c), “where the subject matter for which a patent is being sought is or has been involved in litigation, the existence of such litigation and any other material information arising therefrom must be brought to the attention of the Patent and Trademark Office.” The SUITCASE which is shown and described in the present patent application is also the subject of a trademark and trade dress lawsuit, *Landor & Hawa U.S.A., Inc., Landor & Hawa International, Ltd. v. Heys U.S.A., Inc., Heys International, Ltd.*, which was filed in United States District Court for the Southern District of Indiana, Indianapolis Division and assigned case number 05-cv-0962-LJM-WTL.

Under MPEP § 2001.06(c), “[e]nough information should be submitted to clearly inform the Office of the nature of these issues so that the Office can intelligently evaluate the need for asking for further materials in the litigation.” The complaint in this lawsuit was filed on June 27, 2005 and, other than the complaint, no further pleadings, motions, or other documents regarding the substantive merits of the case have been filed. A trial has not yet taken place. A copy of the complaint is submitted with this Supplemental Information Disclosure Statement and is listed on the attached PTO 1449 form as item AT. The lawsuit does not currently involve any U.S. patents.

According to MPEP § 2001.06(c), “[e]xamples of such material information include evidence of possible prior public use or sales, questions of inventorship, prior art, allegations of “fraud,” “inequitable conduct,” and “violation of duty of disclosure.” Further according to MPEP § 2001.06(c), “[a]nother example of such material information is any assertion that is made during litigation which is contradictory to assertions made to the examiner. *Environ Prods., Inc. v. Total Containment, Inc.*, 43 USPQ2d 1288, 1291 (E.D. Pa. 1997).” At the present time, no information which falls into any of the above-listed categories has been identified in the present litigation. Furthermore, because the lawsuit relates to trademark and trade dress infringement, it is believed that

it is unlikely that information arising in connection with this lawsuit will bear upon any of the above-listed categories. However, if such material information should arise during the course of litigation, it is our intention to provide that material information to the U.S. Patent & Trademark Office in subsequent Supplemental Information Disclosure Statements.

None of the prior art listed on the attached PTO Form 1449 is believed to disclose or suggest the invention recited in the claims of the above-identified application. It is therefore believed that the claimed invention is patentably distinguishable over these references

Please charge any fees that might be due in connection with this Information Disclosure Statement to Deposit Account No. 10-0435, with reference to attorney docket number 38566-77784.

Respectfully submitted,

BARNES & THORNBURG LLP
